2. Rubik's Cube (3*3/4*4/5*5/Megaminx)

LANGUAGES

1. Chinese(Mandarin) (Native)
2. English (Medium)
3. Korean(Learning and Improving)

Dear Sir/Madam,

I am Miha Wang from South Korea (HK ID Holder).

I'd like to tell about how I started learning Web Development.

I did not know what kind of career I build when I studied Business Chinese at University.

One day I just started learning it from books and online courses by myself after classes during the last two semesters at university and it was very hard because I never learned them before. Over the time I got used to learn and enjoy them.

A few months after graduation, I was constantly devoted to programming and looking for a job. And I believe in that I work hard and seriously the job done. At the same time, I try to learn the new skills and enhance my knowledge of programming.

If you are looking forward to finding someone who is passionate and not tired of learning, It would be pleased to be a part of your company.

Thank you

Best regards,

Miha Wang
